

7200A PrecisionCut

7200A PrecisionCut™ and 7400A TerrainCut™ Trim & Surrounds

These two mowers change the way trim and surrounds areas are maintained. Both the 7200A and 7400A are Final Tier 4 compliant without sacrificing horsepower and the 7400 has 12% more power than its predecessor. Both feature the exclusive Width On Demand system, right at the operator's fingertips. Operators can change the width of cut on the go with the simple toggle of a switch. And both also have the Reach Trimming System, which allows you to extend either the front left or front right deck 15 in. beyond the outside edge of the tire, allowing you to trim around bunkers and other areas.
